

## TASK 3 :

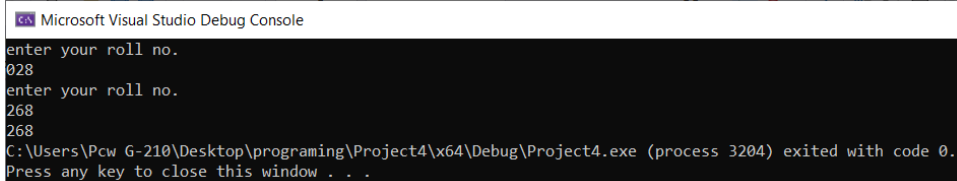

3-write a program that declares initializes two number with your roll no and your friend roll no and displays the greater of the two.

## SOURCE CODE:

```
#include<iostream>
using namespace std;
int main() {
    int x;
    cout<<"enter your roll no." << endl;
    cin >> x;
    int y;
    cout<<"enter your roll no." << endl;
    cin >> y;
    if (x > y)
        cout << x << endl;
    else
        cout << y;

    return 0;
}
```

## OUTPUT :

Microsoft Visual Studio Debug Console

```
enter your roll no.
028
enter your roll no.
268
268
